

### Schedule

Tuesday August 10 <sup>th</sup>	Pacífico	Atlántico	Buen Ayre A & B	
<b>I ProEducar SOLACI Course for Fellows in Interventional Cardiology</b>  <b>Topic I:</b> Chronic Total Occlusions  <b>Topic II:</b> Bifurcation Lesions  <b>Topic III:</b> Contrast-Induced Nephropathy (CIN)  <b>Forum:</b> Job Opportunity for Fellows-In-Training  <b>Topic IV:</b> Carotid Angioplasty  <b>Topic V:</b> Left Main and Multiple vessels  <b>Topic VI:</b> Aortic Endoprosthesis	08:00 08:30	Welcome Ceremony		
	08:30 10:30	Lives Cases 1 & 2. The Year in Review	Non Invasive Images	Vascular Interventions
	10:30 12:00	Lives Cases 3 & 4. DES Conference	Invasive Images	Abstracts Session I
	12:00 13:30	Sirolimus: From Transforming Efficacy with Cypher to Advanced Safety with NEVO. (Lunch Symposium Sponsored by Cordis)	Lunch Symposium Sponsored by Eucatech/Possis-Medrad	Lunch Symposium Sponsored by Eurocor
	13:30 14:00	Break		
	14:00 15:30	<b>EuroPCR@SOLACI Live Case 5. Live in a Box Case from Toulouse</b>	Interventions for Clinical Cardiologists I: Acute Coronary Syndromes with ST Elevation	Therapeutic Alternatives for the Prevention of Coronary Restenosis
	15:30 17:00		<b>Spanish Society of Cardiology@SOLACI (Joint Session with SAC &amp; FAC)</b>	Limb Salvage
	17:00 18:00		SOLACI Assembly	
	18:00 19:30	Opening Conference and Ceremony		
	19:30 20:30	Welcome Cocktail		

### Schedule

Buen Ayre C	Pacarά	Jacarandá
Biosafety		
Burn Out Syndrome		Ultimate Technology Symposium I (Sponsored by Unrestricted Grants of SOLACI's Sponsors)
Complications in Interventional Cardiology	From Basic to Clinical Research	Ultimate Technology Symposium II (Sponsored by Unrestricted Grants of SOLACI's Sponsors)
Dedicated Infection Control in ICU		
Cost-Efficiency Management in the Cathlab		
Break		
Neurointerventions	Transradial Intervention Workshop (Sponsored by Terumo)	Ultimate Technology Symposium III (Sponsored by Unrestricted Grants of SOLACI's Sponsors)
CT Multislice		ProEducar Session I: Endoluminal Treatment for Coronary Lesions
Material Preparation and Sterilization		Minimizing the Radiation Risk in the Cath Lab
Interventional Radiology		
Role of Nurses and Technicians		

Schedule

Schedule

Thursday August 12 <sup>th</sup>	Pacífico	Atlántico	Buen Ayre A & B
08:00 09:00		Pediatric Live Cases: Live Case 7 & 8	
09:00 10:30	Live Cases 9 & 10	Abdominal Aortic Aneurysm. Live in a Box Case	Interventions for Clinical Cardiologists II: Late Treatment of Infarction
10:30 12:00		Interventions for Clinical Cardiologists III: Diabetic Patients	Abstracts Session II
12:00 13:30	The Future of Interventional Cardiology (Lunch Symposium Sponsored by Medtronic)	Coronary Angioplasty. A New Era in Interventional Cardiology and BSCI Contribution to Live This Moment. (Lunch Symposium Sponsored by BSCI)	Lunch Symposium Sponsored by Biosensors
14:00 15:30	Live Cases 11 & 12	Interventions for Clinical Cardiologists IV: How Has the Daily Practice of the Cardiovascular Surgeon, Clinical Cardiologist and Interventional Cardiologist Changed After the Latest Randomized Trails?	New Treatments for the Prevention of Cardioembolic Stroke
15:30 16:00	SOLACI 2011 Presentation	Break	
16:00 18:00	Percutaneous Valvular Treatment. Live Case 13	Interventions for Clinical Cardiologists V: Acute Coronary Syndromes without ST Elevation	
18:30 20:30	Evening Symposium Sponsored by Abbott Vascular	Evening Symposium Sponsored by Terumo	

Buen Ayre C	Pacará	Lenga	Alerce	Jacarandá	
Biosafety	Interventional Treatment of Left Heart Hypoplastic Syndrome				08:00 09:00
Burn Out Syndrome	Percutaneous Treatment of Interatrial Communications and Patent Ductus Arteriosus				09:00 10:30
Complications in Interventional Cardiology	Interventional Treatment of Aortic Coarctation			ProEducar Session II: Endoluminal Treatment for Carotid and Renal Lesions	10:30 12:00
Dedicated Infection Control in ICU	Percutaneous Closure of Interatrial Communications				12:00 13:30
Cost-Efficiency Management in the Cathlab	Percutaneous Implant of Pulmonary Valve				14:00 15:30
Neurointerventions	Interventional Procedures in Newborns			ProEducar Session III: Endoluminal Treatment for Coronary Lesions	16:00 18:00
CT Multislice	Interventions in Aftercare of Patients with Congenital Heart Disease		Break		18:30 20:30
Material Preparation and Sterilization	New Developments for Percutaneous Treatment of Congenital Heart Disease	SOLACI 2011 Presentation for Industry Representatives			
Interventional Radiology	Interventions for Adult Congenital Heart Disease				
Role of Nurses and Technicians	Miscellaneous: Occlusion of Coronary and Pulmonary Fistulae, Radiofrequency Perforation of Pulmonary Valves.				

Schedule

Schedule

Friday August 13 <sup>th</sup>	Pacífico	Atlántico	Buen Ayre A & B
08:00 09:00	Clinical Assessment of Valvular Patients	Adult Congenital Heart Disease Live Case 14 & 15	
09:00 10:30	Live Case 16 & 17	Acute Coronary Syndromes: Patient and Vulnerable Plaque Assessment	Structural Images III
10:30 12:00	Percutaneous Treatment of Aortic Stenosis. Live Case 18	Interventions for Clinical Cardiologists VI: Non Invasive Assessment of Panvascular Patients. Live Case 19	Abstracts Session III
12:00 13:30	Lunch Symposium Sponsored by Eli Lilly		Lunch Symposium Sponsored by Cellofarm
14:00 15:30	Best Abstracts Awards	Revascularization Strategy for Patients with Left Main Coronary Disease	
15:30 16:00	<b>"Stent Selection in Vulnerable Plaque". Closing Conference by Dr. Renu Virmani. Closing Ceremony.</b>		
16:00 17:00			
17:00 18:00			

Buen Ayre C	Pacará	Lenga	Alerce	Jacarandá
Biosafety	Interventional Treatment of Left Heart Hypoplastic Syndrome			
Burn Out Syndrome	Percutaneous Treatment of Interatrial Communications and Patent Ductus Arteriosus			
Complications in Interventional Cardiology	Interventional Treatment of Aortic Coarctation			ProEducar Session IV: Endoluminal Treatment for Aorta and Lower Limbs Lesions
Dedicated Infection Control in ICU	Percutaneous Closure of Interatrial Communications			
Cost-Efficiency Management in the Cathlab	Percutaneous Implant of Pulmonary Valve			
Neurointerventions	Interventional Procedures in Newborns			
CT Multislice	Interventions in Aftercare of Patients with Congenital Heart Disease			
Material Preparation and Sterilization	New Developments for Percutaneous Treatment of Congenital Heart Disease			
Interventional Radiology	Interventions for Adult Congenital Heart Disease			
Role of Nurses and Technicians	Miscellaneous: Occlusion of Coronary and Pulmonary Fistulae, Radiofrequency Perforation of Pulmonary Valves.
